Hal Stewart Sculpting Classes 2011

Left, Hal is wearing a monitor as John (seated) lost his hearing in the service working on the flight-line during the Vietnam War. John doesn't socialize much since he says it is extremely difficult to communicate. John loves our classes and will be returning.

Left is Winston Howell - our success story from last season. Winston was left paralyzed on his left side, after a stroke and seven years of noninvolvement in society. Encouraged by Hal to work his hand at home, he now has tingling in his left hand and arm. Winston loves life and attends classes every week. All the veterans are looking forward to our return in 2012.

Hal Stewart is a veteran himself and looks forward to another season with his fellow comrades. The veterans are helping us spread the word to bring in more veterans next season.

They Had A Special Love & Respect For Each Other
