American Healing Arts Foundation

Lori Landis "Finding Your Creative Self" 2011

Lori Landis is passionate about finding *ones creative inner self* through the therapy of art. She knows as she has had to overcome polio in her arm, shyness and feeling inhibited. Her story was moving; she touched the veterans deeply and helped them greatly. Sharing her story was something they related to after returning from their wars. She as well as the veterans looks forward to returning next season.
